

AIR FILTERS

Synthetic-fiber box filter

A rigid box format for central air-handling and variable-air-volume systems. The supplier lists multiple efficiency options across this product family.

Filter medium	Synthetic fiber
Frame / end caps	Galvanized steel
Converted thickness	To be confirmed
Supplier-stated efficiency	45-95%; F5 / F6 / F7 / F8
Finished width × height	Not provided; specify in inches
Sales unit	1 filter

SPECIFICATION NOTES

Supplier catalogue values describe a product family. A tested grade, rated airflow and pressure drop must be confirmed for the selected configuration.
