

AIR FILTERS

Cylindrical cartridge filter

A pleated cylindrical cartridge with sealed end caps for compatible industrial equipment. Confirm outside diameter, inside diameter, length and end-cap connection before ordering.

Filter medium	Synthetic nonwoven or glass-fiber paper
Frame / end caps	Metal / polyurethane end caps
Converted thickness	To be confirmed
Supplier-stated efficiency	65–99.9%
Finished width × height	Not provided; specify in inches
Sales unit	1 filter

SPECIFICATION NOTES

Supplier catalogue values describe a product family. A tested grade, rated airflow and pressure drop must be confirmed for the selected configuration.

The supplied efficiency percentages do not specify a particle size and test method. No H13, H14 or MERV equivalence is assigned.
