

AIR FILTERS

High-humidity high-efficiency filter

Moisture-resistant media and sealed construction for humid air systems. The source states up to 100% RH; condensation and temperature limits require confirmation.

Filter medium	Moisture-resistant glass-fiber paper
Frame / end caps	Aluminum; other frames require confirmation
Converted thickness	To be confirmed
Supplier-stated efficiency	99-99.9999%
Finished width × height	Not provided; specify in inches
Supplier maximum humidity	100% RH
Sales unit	1 filter

SPECIFICATION NOTES

Supplier catalogue values describe a product family. A tested grade, rated airflow and pressure drop must be confirmed for the selected configuration.

The supplied efficiency percentages do not specify a particle size and test method. No H13, H14 or MERV equivalence is assigned.
