

AIR FILTERS

Washable metal-mesh filter

A reusable mesh panel for coarse particle capture. Choose aluminum or nylon mesh according to the equipment and cleaning process.

Filter medium	Layered aluminum or nylon mesh
Frame / end caps	Aluminum alloy
Converted thickness	0.394 in / 0.787 in / 1.772 in
Supplier-stated efficiency	Coarse filtration; no tested grade supplied
Finished width × height	Not provided; specify in inches
Sales unit	1 filter

SPECIFICATION NOTES

Supplier catalogue values describe a product family. A tested grade, rated airflow and pressure drop must be confirmed for the selected configuration.

Thickness is a direct metric conversion, rounded to 0.001 in. It is not a US nominal filter size or a manufacturing tolerance.
