

AIR FILTERS

Flat-panel paper-frame filter

A shallow flat-panel filter for installations with limited depth. Confirm the efficiency grade before specifying a replacement.

DIMENSIONS & REFERENCE UNIT PRICES

20 × 20 × 0.5 in · nominal — price on request

20 × 20 × 1 in · nominal — price on request

Filter medium	Continuous-filament nonwoven
Frame / end caps	Rigid paperboard
Converted thickness	0.394 in / 0.787 in
Supplier-stated efficiency	Grade requires confirmation
Finished width × height	Not provided; specify in inches
Sales unit	1 filter
Default nominal face size	20 × 20 in. Actual face dimensions and fit confirmed with quotation.

SPECIFICATION NOTES

Default ordering sizes: 20 × 20 × 0.5 in, 20 × 20 × 1 in. These are nominal selections, not measured dimensions. Supplier-listed thicknesses remain 0.394, 0.787 in respectively. Confirm actual width, height and depth before ordering.

Supplier catalogue values describe a product family. A tested grade, rated airflow and pressure drop must be confirmed for the selected configuration.

Thickness is a direct metric conversion, rounded to 0.001 in. It is not a US nominal filter size or a manufacturing tolerance.
